

REGISTRATION

An application for registration is the first stage of the admissions process. A registration fee must be deposited along with the application Form so that the child's name may be registered for the year and class for which admission is sought. The fee is neither refundable nor adjustable and it is valid only for the specified academic year. Registration of a child is not a guarantee of his / her admission.

CREATIVE LAB

A Creative Lab is a dedicated, flexible space in schools designed for hands-on, experiential learning. These labs shift the focus from passive memorisation to active problem-solving, allowing students to prototype ideas using both high-tech tools and traditional materials.

PERSONALITY DEVELOPMENT

Student learning is influenced most directly by classroom conditions. We have maintained decorum for the classrooms with handmade painting, educational tools, such as maps, globes, rulers and charts. We at our school practice few activities related to personality development such as Communication skills, Thinking and problem solving skills, Team spirit, Entrepreneur skills, Ethics, morals and professionalism & Leadership skills. Group Discussion helps students to develop an ability to write critically and analytically about any number of topics and concerns. We give topics inside the classrooms to our students and allow them to speak randomly whatever comes in their mind which helps them building their confidence level to communicate in front of everyone.
